NEW ARRIVAL!

EON™

Learns Your Pool.
Cleans it All.

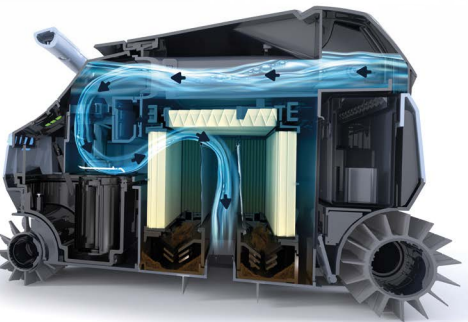

Full pool coverage, even in hard-to-reach areas. Cleans ledges as shallow as 20cm.

Cleans floors, walls, waterlines, steps, tanning ledges - leaving no area untouched.

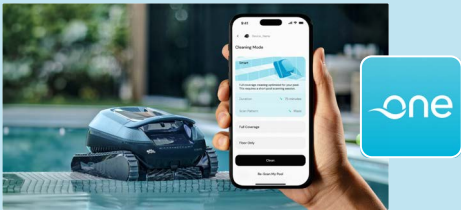

EON 120d

SmartMap™ Navigation + UltraRun™ mode

Customised cleaning path and extended autonomy for continuous performance.

Advanced App Control

Scheduling, monitoring, and support directly from your smartphone.

Exclusive Feature!

Ultra-fine filters + patented DebrisLock™ system:

A self-cleaning filtration system designed to deliver water up to 4x clearer, reduce maintenance, and save up to 20 hours every year.

40 Years of Innovation

The EON™ Range

Pool cleaners that go where others can't!

Dolphin EON cleaners are the only cordless pool robots designed to clean the entire pool, including submerged benches, steps and hard-to-reach corners.

The Dolphin Difference

Unique pool robots unlike any others on the market

With more than 40 years of research and development, Maytronics provides its customers with high-performance, robust products that can be maintained regularly over time.

Proven and unmatched performance

The build quality of Dolphin robots ensures performance that is unparalleled in the corded and cordless pool cleaner market.

Built to last!

With comprehensive warranty of up to 4 years, Dolphin robots are built to last. With regular servicing customers have had robots for over 10 years.

Eco-friendly

Dolphin robots are designed to reduce both energy consumption and water usage, saving up to \$350 per year.

Extensive Product Range

The widest range of robotic pool robots in Australia. With an extensive range of corded and cordless robots, Dolphin is the leading robotic pool cleaning brand in Australia offering users the most comprehensive choice of robot pool cleaners.

Local After-Sales Service

Maytronics has a dedicated service network of local repair and service centres providing fast and expert support nationwide.

A heritage of trust

Designed and developed since 1983, Dolphin robots are used and trusted by more than 5 million users worldwide.
