

WORLD'S FIRST EVER
CORDLESS ROBOTIC
CLEANER SPECIALLY
DESIGNED FOR SPAS

SB1000

SPABOT™

1 EFFORTLESS AND CORDLESS SPA CLEANING

The **first-ever hands-free** robotic cleaner for home spas. SPABOT™ is an autonomous robotic cleaner that is also cordless **thanks to its rechargeable 6 AH lithium-ion battery**.

Its indicator lights show the device's charge level and its progression through the cycle steps.

2 SPANAV™ TECHNOLOGY

Dips and dives, crawls and climbs to maneuver around the seats and small confines of most spa corners & seats. It is suitable for in-ground or above-ground spas and jacuzzis up to 3m x 3m.

3 OPTIMAL COVERAGE

Thanks to its programme especially designed for spas, SPABOT™ efficiently cleans **spa floors, seats and the water line in 60 minutes**.

4 FLOAT FINISH™ RETRIEVAL

Compact and lightweight, weighing only 2.5 kg, SPABOT™ is **easy to handle and remove from the spa**. It floats at the surface at the end of a cycle, making it easy to retrieve. Debris is readily visible through the clear window and easy to remove through top access to the filter canister.

It is normal for the SPABOT™ to float to the surface from time to time to orient itself while it is cleaning the spa.

5 EASY TO USE

SPABOT™ is equipped with a **1L easy clean 100-micron filter canister**. The **transparent window** makes it easy to view when it's full. It has easy **one touch start operation**. The 6AH lithium-ion battery **charges in just 4 hours**, ready to be used again.

FEATURES

USER INTERFACE

Makes it possible to view the battery charge status and launch a cycle.

CLEAR WINDOW

Debris is visible and the filter is readily accessible.

EASY-TO-CLEAN FILTER

Access the filter from the top and clean it without touching debris.

FOR WHICH SPAS?

1 FOR IN-GROUND OR ABOVE-GROUND SPAS

2 ALL SPA SHAPES EXCEPT SPAS WITH INTRICATE SEATING AND FOOTWELL DESIGNS AND/OR 90 DEGREE FLOOR/WALL TRANSITIONS

3 ALL COATINGS

4 SIZES UP TO 3 X 3 M

5 CLEANS THE FLOOR, SEATS AND WATER LINE

TECHNICAL SPECIFICATIONS

Number of motors	3
Cleaner dimensions (W x D x H)	28 x 25.5 x 23 cm
Cleaner weight	2.5 kg
Cleaning cycle	1 cycle - Floor/seats/walls: 60 min
Filter capacity	1L
Filtration	100µ
Suction inlet	7.4 cm
Battery	6 Ah
Battery charging time	4 hours
Retrieval	Float Finish™ Retrieval
Safety	Beach system, out-of-water safety, electronic motor protection

CORD-FREE. HASSLE-FREE.

Spabot's rechargeable lithium-ion battery makes cleaning easier than ever. Simply turn it on, let it clean, then plug it in to recharge for next time.

Please note: SPABOT™ is not suitable for swimming pools. It is suitable for most spa/jacuzzi/hot tub surfaces and shapes - except spas with intricate seating and footwell designs and/or 90 degree floor/wall transitions. It is normal for SPABOT™ to float to the surface from time to time during a cleaning cycle and dive back in again. Turn off spa pump and jets while using the cleaner.
